Hiram Hill is still working at the sunken Ed. Hobbs, but the work of raising her will be post-poned for several days until the river falls anfficiently. A force of laborers are now busy planking up a hole eighty leet long, which was knocked in her hull by the ice when she sunk. At present her boller deck forward is about 18 inches out of the water, and her inside boller deck, the entire length of the boat, is above the surface of the water.

A Source of Much Bodily Evil.

If the habit of body becomes irregular, nuch evil is indicted on the system. The stomach becomes dyspeptic, bilious symptoms develop themselves, the circulation is contaminated, and the nerves share in the general disorder. It is of the utmost importance that the bowels should be thoroughly and speedily regulated when they grow derelict. The corrective agent best adapted to this purpose is Hostetter's Stomach Bitters, a wholesome, non-griping vegetable laxative, worth all the rasping cathar, ics invented since the time of Paracelsus. People who have been in the habit of using blue pill, calomel, and other drugs and cheap nostrums, should abandon such hurtful and useless medicines, and substitute for them this pleasant and gentle aperient, which not only produces the purgative effect naturally, but also a rengthens while it regulates the bowels, stomach and liver. It moreover cures and prevents intermittent and remittent fevers, gout, rheumatism, debility and urinary troubles.
